STATISTICAL INFORMATION

The Statistical information contained in this report is compiled from financial statements furnished by the various Cities, Towns, Villages, Counties and Municipal Districts, and covers the calendar year 1951. Information regarding Improvement Districts is taken from Departmental records and covers the year ending December 31st, 1951. Information regarding Special Areas is taken from the records of the Special Areas Board and covers the calendar year 1951.

Exact comparison of statistics in this report with previous years is not possible in all respects due to a revision of some of the items contained under the various headings as recommended at the last Dominion-Provincial Conference on Municipal Statistics. The changes are mainly in the general sections of the Revenue and Expenditure Accounts. For example, any surplus taken into revenue from public utilities instead of being a separate heading is now included with contributions, grants and subsidies. This heading has been changed from Grants and Subsidies from Other Governments to Contributions, Grants and Subsidies so that it now covers all forms of revenue of this nature, and in all cases will show a substantial increase because of the grants provided for by The Municipal Assistance Act. Under expenditure, Conservation of Health has been changed to Health and now includes all expenditures for health. Items such as hospital requisitions, indigent health care and hospital grants that were previously carried under Public Welfare are now included under Health. With the exclusion of these items from Public Welfare, this heading has become Social Welfare and now includes only items of aid made to the aged and infirm, unemployed, mothers allowance and child welfare, exclusive of health expenditures. Discounts on current taxes has been transferred from Debt Charges to Joint, Special and Miscellaneous Expenditures.

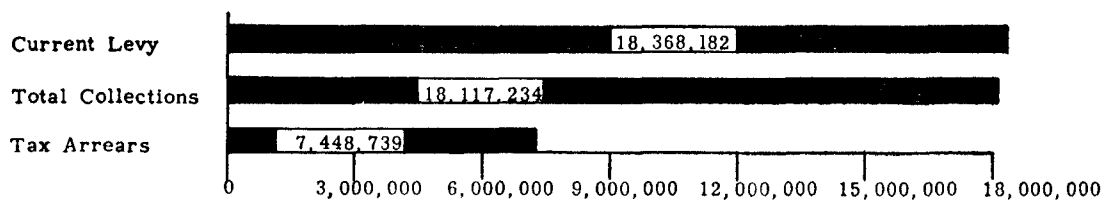

By an amendment to The Assessment Act all municipalities other than cities are required to tax Buildings and Improvements on 100% of their assessed value, which will account for a major portion of increases in assessments.

CITIES (7)

There has been no change in the number of Cities. The population of cities shows an increase of 12,146 from 329,811 in 1950 to 341,957 in 1951.

Most of this increase is accounted for by \$2,904,827.67 additional tax revenue and grants of \$1,740,989.11 received for the first time by way of the Municipal Assistance Act. All items of revenue show increases except Licenses and Permits and Service Charges for which decreases of \$5,588.07 and \$73,245.88, respectively, were reported.

COUNTIES (2)

The County Act, 1950, provided an alternative form of self-government for the rural areas and was designed to give more efficient local government. It is voluntary and to be retained must after four years receive by vote the approval of the taxpayers.

Two Counties have been organized for the entire calendar year ending December 31st, 1951. They are The County of Grande Prairie, No. 1 consisting of the former Municipal District of Grande Prairie, No. 127 with the addition of small parts of Improvements Districts 132 and 134 and The County of Vulcan, No. 2 comprised of the former Municipal District of Vulcan No. 29 with the addition of parts of The Municipal District of Blackie, No. 30, The Municipal District of Argyle, No. 26, The Municipal District of Barons, No. 25 and Special Area, No. 4.

As this is the first time that statistical information concerning Counties has been included in this Report, comparisons are not possible.

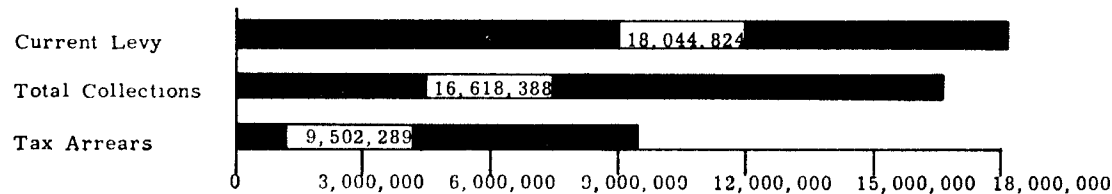

MUNICIPAL DISTRICTS (54)

During 1951 The Municipal District of Blackie, No. 30, was absorbed by The Municipal District of Highwood, No. 31, and the County of Vulcan, No. 2. The Municipal Districts of Vulcan, No. 29, and Grande Prairie, No. 127 were enlarged to form Counties. There are now 45 enlarged districts and 9 which have not been enlarged.

In making a comparison of this year's totals of the various accounts with those of last year, it will have to be borne in mind that the current report covers 54 districts whereas in 1950 there were 57 districts.

Assessment.—The total net assessment for 1951 was \$372,101,273 and although some eighteen and a half million dollars assessment was transferred to the Counties, there was an increase of \$3,730,986 over the 1950 figure of \$368,370,287.

Taxation.—The 1951 current levy of \$18,044,824 is \$323,709 less than the 1950 levy. On the other hand, collections of \$16,618,388 are \$287,374 more than in 1950 and expressed in percentages collections were 92.09% of the current levy as compared to 88.91% in 1950.

General Revenue.—The total revenue for the year 1951 was \$23,147,123 as compared to \$21,728,210, being an increase of \$1,418,913. This increase was due mainly to Municipal Assistance Act Grants of \$1,825,144.

Assessments.—The total net assessment increased from \$53,557,822 in 1950 to \$61,145,790 in 1951, this being an increase of \$7,587,968 which was due mainly to an increase of \$6,576,488 in the assessment of Buildings and Improvements, from \$11,092,350 in 1950 to \$17,668,838 in 1951. Total Land Assessments increased \$31,700 and total Personal Property assessments increased \$979,780.

SPECIAL AREAS (3)

There are three Special Areas consisting of Municipal and Improvement Districts that were dissolved during the drought period of the 1930's and formed into Special Areas under the Special Areas Act. These are administered by a Special Areas Board which maintains four offices in these Districts and has since 1948 come under the control of the Department of Municipal Affairs.

Total Revenue for 1951 amounted to \$1,068,781 as compared to total expenditures of \$905,738 for a surplus of \$163,043.

REPORT OF THE SPECIAL AREAS BOARD

The year 1951 in the Special Areas was rather unusual. Moisture conditions were quite ample. The heavy snowfall during the winter months created an excessive runoff which caused considerable damage to dams, roads, bridges and culverts. The benefits, however, greatly outweighed the destruction, as much needed water was conserved in dams, dugouts, lakes and sloughs, which had been dry for some time owing to lack of runoff. There was an excessive amount of moisture during the summer months, with approximately 13.20 inches of rain recorded for this area. This caused a delay in the harvesting of the balance of the 1950 crop, which was carried over winter in swath or stook, and resulted in the delay of spring seeding to some extent.

The heavy moisture during the summer resulted in an abundance of growth but seriously curtailed haying and harvesting, with the result that a large amount of the 1951 crop was left in the fields over winter, some in stook, many fields swathed and a lesser acreage uncut.

It should be noted, however, that the average stand of grain was in general better than usual, going as high as 30 bushels per acre for wheat. Had all crops been harvested, the average would have been perhaps, 15 to 20 bushels per acre. The final 1951 yield however, will depend on the condition in which the unthreshed grain comes through the winter. Grain threshed in the fall was damp and tough, grading mostly 4 and 5.

Livestock conditions for the year were as good or better than average. Severe storms on March 17th and again on April 17th took their toll of livestock, in some districts a considerable number of sheep and cattle perished in these storms. The abundance of feed, however, carried the stock through winter in very good condition, and prices have remained good.

Some losses have occurred from Bangs Disease, which has had the effect of alerting farmers and ranchers to the need for vaccination to control this disease. It is estimated that some 50% of the heifer calves in the district received vaccination during the year and a greater percentage would be vaccinated if the Veterinarian was available. The district is also ready for inspection

as a T.B. free area when this work can be undertaken. District agriculturists Mr. J. Moore and Mr. Wm. Perkins, who are serving the area, have carried out a very good program in the promotion of calf and grain clubs, field days, and short courses in agriculture.

The brown Norwegian rat has made its appearance in Alberta along the Saskatchewan boundary at Sibbald, Altario and Acadia Valley. Action has been taken to stem the invasion of these rodents and an extensive program is under way by the Department concerned and local authorities to keep this pest from spreading throughout the province.

Our policy of paying a bounty of five dollars each for the destruction of coyotes resulted in the extermination of 2,025 coyotes at a cost of \$10,125.00, of which 75% was paid by the Department of Lands and Forests. The use of cyanide guns for the eradication of coyotes is now being adopted and it is thought that they will more adequately control this pest.

The grasshopper forecast of 1951 showed more severe areas than average and considerable precautionary measures were adopted. However, the cold wet spring delayed or destroyed the hatching of eggs, this together with the abundant growth resulted in little damage being done by this pest. We have sufficient supplies on hand to cope with the expected problem for the coming year.

The rate of growth in our Wood Lot at Youngstown is quite noticeable. Replacement planting of 1000 ash, 500 noble, 500 northwest poplar and 500 acute willows was done during the year. Tree planting for shelter belts and snow traps is receiving greater attention as a result of publicity and guidance by the District Agriculturists.

The Cessford Irrigation Project operated fairly successfully with only one flooding due to the heavy rains, the crops grown being mainly for feed purposes. We expect increased activity in irrigation projects in the coming year, the various dams throughout the area being full of storage water. Several conferences and inspections were had with officials of the Department of Municipal Affairs, Department of Agriculture, Water Resources Branch, and the P.F.R.A., in regard to the use of land, the setting up of plots and general regulations.

An increase in the use of water from the projects is expected over the next few years and the services of an experienced irrigationist to serve the areas is under consideration.

The activities of the P.F.R.A. were confined to the repair of damage done by heavy flooding and unusual heavy spring runoff. In spite of precautions taken, considerable damage occurred to spillways and dams of the larger projects, which required much work and materials. The season was not favourable for the construction of new work, consequently very little work was done within the area in regard to dams and dugouts.

The regrassing of previously cultivated lands held under grazing lease has been delayed this year to some extent on account of the scarcity of seed. We harvested from our plots 75,000 pounds of crested wheat grass seed this season, which will provide ample supplies for regrassing in the year 1952.

SUMMARY OF ROAD CONSTRUCTION AND MAINTENANCE
COST COMPUTED ON MACHINE HOUR BASIS

The year was not favourable for the construction of roads, resulting in less than average mileage of new roads being built. Maintenance however, was above average. Total expenses on roads were below the previous year. New equipment purchased consisted of maintenance and construction machinery.

REPORT OF THE PROVINCIAL PLANNING ADVISORY BOARD
FOR THE YEAR ENDING MARCH 31st, 1952

During the fiscal year ending March 31st, 1952, the rapid development of the Province was again reflected in the amount of work performed by the Provincial Planning Advisory Board and the Town and Rural Planning Branch. Subdivision plans presented for approval numbered 427, and final plans of subdivision passed on for registration at the Land Titles Office numbered 340. The approval fees collected on these plans amounted to \$8,860.20, compared with \$8,714.00 in the previous year.

About 200 enquiries concerning transfers of land by metes and bounds description were dealt with, of which 111 were approved, 44 rejected, and the remainder dropped. In addition, 32 school sites were examined by the Branch on behalf of the Department of Education.

The most notable increase in planning work was that done on behalf of local authorities throughout the Province. In the year 1949-50 nine zoning by-laws were approved by the Minister, in 1950-51 three, while in 1951-52 there were thirteen such by-laws. This represents the greatest number of zoning by-laws ever passed in any one year since the original Town Planning Act came into being in 1929. In addition to the thirteen original zoning by-laws, twenty-five amending by-laws were also passed. In nearly all cases the staff of the Branch did the preliminary work leading up to the passage of the final by-law.

During the year seventeen local authorities resolved to prepare general plans and as a result of these resolutions thirteen Interim Development Orders were issued by the Minister and three Interim Development By-laws were finally passed and are now in operation. Two Technical Planning Boards were established by by-law and approved by the Minister.

Also during the fiscal year 1951-52 the Calgary District Planning Commission was established, consisting of the City of Calgary, the Town of Bowness, the Village of Forest Lawn, the Municipal Districts of Conrich No. 44 and Springbank No. 45, and Improvement District No. 46. This Commission began its operations in October of 1951. About the same time resolutions were received from the City of Red Deer and the Municipal District of Red Deer requesting the establishment of a District Planning Commission in that area.

The Town and Rural Planning Branch undertook for the first time complete planning studies for Towns in the Province. During the past fiscal year the Towns of Ponoka and Brooks were surveyed and planning reports for those towns are well under way. Planning surveys for Leduc were also undertaken and the results turned over to the Edmonton District Planning Commission to work out a general plan and new zoning by-law. A considerable number of partial planning studies were also made, including the following:

- Project No. 3.51—Lac La Biche—zoning by-law and partial re-plotting.
- Project No. 4.51—Olds—new zoning by-law and new building by-law.
- Project No. 6-51—High Prairie—zoning by-law and an official scheme for a residential area.
- Project No. 7.51—Lloydminster—a development plan for a new Neighborhood Unit west of the present built up area.
- Project No. 11.51—Wildwood—new zoning by-law.
- Project No. 4.52—Mundare—new zoning by-law.

Preliminary visits were made to a number of Towns in the Province in connection with their planning problems and in the cases of Grande Prairie, Bonnyville, Stettler, Wainwright and Tofield preliminary surveys were completed and requests were received from these towns for complete planning studies to be undertaken by the Branch for the fiscal year 1952-53.

Seventy-nine applications for development permits in the vicinity of declared highways were granted and fifty-one sign board licenses were also granted. In this connection the Branch undertook surveys of existing development on declared highways and completed the survey of over 90% of paved highway mileage in the province, a total of over 2000 miles.

The Provincial Planning Advisory Board held five formal meetings throughout the year and dealt with a number of matters of general policy with respect to subdivision, land transfers and highway development. Acting as a final appeal board under the interim development by-laws of local authorities, the Board heard four appeals of which three were refused and one granted in part.

The Board also directed that explanatory pamphlets on planning be prepared, and two such pamphlets were issued during the fiscal year, the first dealing with the facilities offered by the Town and Rural Planning Branch to assist local authorities, and the second dealing with the procedure to be followed in putting through re-plotting schemes.

Twenty-one Board Orders were issued during the year, each directing the registration of a plan of subdivision comprising more than 50 lots.

COMPARATIVE STATISTICS

Comparative statistics for the past five years are contained in the back of the Report. It may be necessary to refer to the individual statements from which they are drawn if more detailed information is required.

I would like to pay a brief tribute to Mr. T. A. Potts who was superannuated on April 8th, 1952 after thirty-four years continuous service with this Department. After holding various positions in the Department, Mr. Potts was in 1942 appointed Chief Municipal Inspector, the position which he held at the time of his retirement.

Respectfully submitted,

J. W. JUDGE,
Deputy Minister.
